

Developing Toileting Module

This module is intended to develop delegates' understanding of how autism can impact on toileting. The module also aims to equip delegates with strategies to enable and support autistic children to develop their toileting in the setting and at home, through effective communication with parents and carers.

Who is this training for?

This module is intended for delegates working in all Early Years settings.

What will you learn?

The module will help delegates to:

- Understand that autism is a difference not a deficit
- Understand how the three areas of difference in autism may impact on toileting
- Develop knowledge of how to support autistic children with toileting
- Create a plan which will ensure that autistic children in the setting are supported with toileting
